The **Junior Level V Diploma** is a 13-hour course designed for the coach working players 11 to 18 years of age. An emphasis is placed on learning to work with the developing player within both an individual and team concept. The curriculum outlines how technical and tactical concepts can be applied in the development of players. The focus is placed on the basic methods of coaching, teaching proper technique, the theory and application of offensive and defensive tactics and understanding team management. There is no testing in the Junior Level V Diploma.

**The Junior Level VI Diploma** is a 21-hour course that shares a portion of its curriculum with the Junior Level V Diploma. The Junior Level VI Diploma adds an 8-hour segment to the 13-hour Junior Level V Diploma curriculum, devoted to technical and tactical uses of small-sided games, the study of systems of play and a practice teaching component. Participants are given an opportunity to conduct a training session on an assigned topic and are assessed by the course instructor.
