

Preseason Team Camp Monday-Thursday, August 2-5, 2010

**Charlotte Soccer Academy will kick off the season with Preseason Team Camp.
CSA players are expected to attend camp with their teams.**

Camp curriculum will focus on all aspects of the game with a topic for each day and plenty of individual technical training designed to prepare each player for the season. In addition to the individual-based technical training, we will have a tactical component for teams to work on each day. New this year is the intra-club league, with a daily game schedule to give teams the opportunity to apply what they have learned to game situations.
